## **2. Collection and storage of personal data as well as the nature and purpose of their use**

a) When visiting the website

When you visit my website [www.streiff.de](http://www.streiff.de), the browser used on your device automatically sends information to the server of my website. This information is temporarily stored in a so-called log file. The following information will be collected without your intervention and stored until automated deletion:

- IP address of the requesting computer
- Date and time of access
- Name and URL of the retrieved file
- Website from which access is made (referrer URL)
- used browser and
- if applicable, the operating system of your computer as well as the name of your access provider

The data mentioned are processed by us for the following purposes:

- ensuring a smooth connection of the website

- for further administrative purposes

The legal basis for data processing is Art. 6 para. 1 p. 1 lit. f DSGVO. My legitimate interest follows from the data collection purposes listed above. In no case I use the collected data for the purpose of drawing conclusions about you.

In addition, I use cookies and analysis services when visiting my website. Further details can be found under no. 4 and 5 of this privacy policy.

b) By using my contact form

For questions of any kind, I offer you the opportunity to contact us via a form provided on the website. It is necessary to provide a valid e-mail address so that I know who the request came from and to answer it. Further information can be provided voluntarily.

The data processing for the purpose of contacting me is in accordance with Art. 6 para. 1 p. 1 lit. a DSGVO based on your voluntarily granted consent.

The personal data collected by us for the use of the contact form will be automatically deleted after completion of the request made by you.

### **3. Communication via email**

Please note that when communicating or contacting us via e-mail there are technical security risks in this means of communication in the form of an unprotected access of third parties online. Third parties can read, copy or alter messages that are not encrypted (sufficiently). Even TLS or SSL encryption provided by standard email providers is not 100% secure. At your request we can set up an end to end encryption with you. This requires using an extra certificate, a public key and the exchange of passwords to open the encrypted email messages. We recommend you to contact your system administrator in this case.

If you as a (potential) client wish to communicate or continue to communicate with us via normal, unencrypted or not sufficiently encrypted email, we assume that you agree on us

responding via such means as well, unless or until either you object to this or a special interest to protect the confidentiality is or becomes obvious to us. Insofar you relieve us from our professional obligation to secrecy in relation to communicating with us via unencrypted email.

#### **4. Disclosure of data**

A transfer of your personal data to third parties for purposes other than those listed below does not take place.

I only share your personal information with third parties if:

- you expressed your consent according to Art. 6 para. 1 p. 1 lit. a DSGVO
- the disclosure pursuant to Art. 6 para. 1 sentence 1 lit. f DSGVO is required to assert, exercise or defend legal claims and there is no reason to assume that you have a predominantly legitimate interest in not disclosing your data
- in the event that disclosure pursuant to Art. 6 para. 1 sentence 1 lit. c DSGVO is a legal obligation
- the transfer is legally permissible and required for the execution of contractual relationships with you.

#### **5. Cookies**

I use cookies on my site. These are small files that your browser automatically creates and that are stored on your device (laptop, tablet, smartphone, etc.) when you visit my site. Cookies do not harm your device, do not contain viruses, Trojans or other malicious software.

The cookie stores information which is connected to the device you use to access my website. However, this does not mean that I immediately become aware of your identity.

On the one hand, the use of cookies serves to make the use of my offer more pleasant for you. For example, I use so-called session cookies to recognize that you have already visited individual pages on my website. These are automatically deleted after leaving my page.

In addition, to improve usability, I also use temporary cookies that are stored on your device for a specified period of time. If you visit my site again to take advantage of my services, it will automatically recognize that you have already visited the site before and what inputs and settings you have made, so you do not have to re-enter them.

On the other hand, I use cookies in order to statistically record the use of my website and to evaluate it for the purpose of optimizing my offer (see Section 5). These cookies allow me to automatically recognize when you visit my site again that you have already accessed it before. Cookies are automatically deleted after a defined time.

The data processed by cookies are required for the purposes mentioned in order to safeguard my legitimate interests as well as third parties according to Art. 6 para. 1 sentence 1 lit. f DSGVO.

Most browsers accept cookies automatically. However, you can configure your browser so that no cookies are stored on your computer or always a hint appears before a new cookie is created. However, disabling cookies completely may mean that you can not use all features of my website.

If you would like to exercise your right of revocation or objection, please send an e-mail to [hi@streiff-law.de](mailto:hi@streiff-law.de)

## **9. Data security**

I use the popular SSL (Secure Socket Layer) encryption. In general, this is a 256-bit encryption. If your browser does not support 256-bit encryption, I'll use 128-bit v3 technology instead. Whether a single page of my website is encrypted is shown by the lock icon in the lower status bar of your browser.

I also take appropriate technical and organizational security measures to protect your data against accidental or intentional manipulation, partial or total loss, destruction or against unauthorized access by third parties. My security measures are continuously improved in line with technological developments.
